Participant Invitation: Hyperion Tabletop Exercise 11/10/21

Will you lend your expertise and experience?

As part of our annual wet weather preparations, we are testing the functionality of the gate at our One-Mile Outfall. Prior to that test, we are holding a virtual tabletop exercise with community partners, city and county departments, NGOs, regulators, and other stakeholders, and we hope that you will participate.

During this exercise, we will explain how and why we test the gate, present communication protocols and standard operating procedures, define the role of each stakeholder, review emergency communications, talk through 3 scenarios, and wrap up with finalization of plans for the actual exercise tentatively scheduled for November 17-18, 2021.

As an active participant, you will take part in robust discussions about our operational and communications procedures. The exercise will be Wednesday, November 10 from 10:00am to 12:00pm via Zoom.

If you haven't already, please click the link below in the dark blue box to register. The Zoom link will be shared the morning of the exercise.

[CLICK HERE TO REGISTER YOUR PARTICIPATION](#)

Kindly note that this is an invitation-only event and participant substitutions must be requested in advance in writing. We reserve the right to cancel unauthorized registrations.

We heartily thank you in advance for assisting us in updating our policies and procedures while lending your experience and suggestions to ensure that the actual gate functionality test and related communications go smoothly.

Together, we will better prepare Hyperion Water Reclamation Plant for resiliency and unforeseen emergencies. To learn more about the plant, please visit [Hyperion's web page](#).

We protect public health and the environment.
